

Chinese Zodiacs

According to legend, gods felt the Chinese nation needed reorganizing. One new year, they called all animals in the kingdom together for a meeting but only 12 showed up. Gods endowed each of the 12 with a year of their own.

But who was to head the cycle of years? The gods held a contest: whoever was to reach the opposite bank of the river would be first, and the rest of the animals would receive their years according to their finish.

All the twelve animals gathered at the river bank and jumped in. Unknown to the ox, the rat had jumped upon his back. As the ox was about to jump ashore, the rat jumped off the ox's back, and won the race. The pig, who was very lazy, ended up last. That is why the rat is the first year of the animal cycle, the ox second and the pig last.
